

Indoor/Outdoor Weatherproof IR Illuminator

See what is happening in complete darkness.

Looks like a normal floodlight.

Allows your IR Sensitive CCD cameras to see in the dark.

Extremely long 100,000 hour life.

The NetMedia weather resistant SCIR lights up the night for your IR Sensitive CCD cameras. The SCIR is adjustable a full 360° horizontally and 180° vertically. The IR Illuminator is perfect for any residential or commercial application. A weather resistant heavy duty aluminum case and glass lens cap enclose the IR LED's. It easily mounts to ceilings and walls with the wall mount (included). The power cable is fed through the housing arm, keeping it out of sight and away from the elements.
