3 Channel TriplePlay™ Modulator

Make Your Own TV Channels

M
M
7
3

Use the NetMedia TriplePlay™ to modulate three audio/video sources onto three separate TV channels simultaneously. Great for security surveillance, audio/video distribution and video monitoring. View cameras, VCRs, laserdiscs, DVDs or satellite receivers on the TV channels you choose and distribute them through all the TVs in the home.

Features:

- 3 TV channel audio/video modulation
- Combines with existing TV channels
- UHF & Cable coverage
- One button setup
- Precise digital channel control
- Internally generated test pattern
- Memory retained during power outages
- Rugged aluminum enclosure
- Includes Wall Transformer
- 5 Year Limited Warranty
